TECHNICAL DATA		
	AEROSOL	LIQUID
Appearance	colorless aerosol	colorless liquid
Relative density in 20°C	0,80 ± 0,05 g/cm ³	0,80 ± 0,02 g/cm ³
Boiling point	-42°C - -1°C (propane/butane)	78,3°C
Flash point	-95°C - -60°C (propane/butane)	ok. 15°C
Autoignition temperature	>230°C	ok. 425°C
Solubility	insoluble in water, soluble in ethanol, methanol, acetone, hydrocarbons	soluble in water and most organic solvents
Package	can (400ml)	spray bottle (500ml)

APPLICATION

- Flexo-printing
- Letterpress
- Offset
- Bookbinding

INTENDED USE

Spray **CeraClean® 33** evenly onto objects at a distance of 30 cm. Use at room temperature with good room ventilation.

Attention! The product should be stored at room temperature (below 35°C).

When using highly effective cleaning agents for industrial applications, special precautions must be taken, and health and safety regulations must be followed. The required personal protective equipment should be used during application, and after completion, hands and work materials should be thoroughly washed. The product should only be stored in its original packaging, which must be disposed of according to the instructions on the safety data sheet after it is emptied. Familiarize yourself with the hazards and safety rules on the label and the safety data sheet, which is available upon request.
